

CURRENT OPENING

TRAVELLING TECHNICIAN – FIRE ALARM AND FIRE SUPPRESSION

One Position

Job Location: Multiple Locations – San Diego and Worldwide

www.deeperthanthat.com

info@aosservicesinc.com

AOS Services, Inc. is a multi-service company that provides on-site servicing and inspection of firefighting equipment to the DoD worldwide. Our services range from ladder/hose testing, compressors, SCBA's, rescue equipment, pump testing, the whole nine yards.

We're currently looking to add multiple technicians to our traveling team who is willing and able to cross-train in the services we currently provide and can bring something new to the table. AOS will provide all training and certification courses necessary for the job.

This position offers the opportunity to learn a wide-range of new skills, a strong team environment and the opportunity to travel to remote areas of the world (Spain, Korea, Diego Garcia, Italy, to name a few.)

Ideal Candidate

As this is a traveling position, the candidate **MUST** be able to be on the road, sometimes months at a time. Please keep that in mind depending on your current living situation.

That being said, we currently have a large portion of work in Southern California, so qualified candidate living in that area will receive preference (namely San Diego/Oceanside.)

We are currently looking for someone with fire suppression and/or fire alarm background and certification to add their skills to our arsenal, however other qualified candidates will be also considered.

Daily Tasks

Employee will learn how to service and maintain a wide-variety of firefighting equipment from ladders, SCBAs, pumps, compressors, rescue equipment and more. They will receive a wide variety of certificates. Most days are different and unique, great for someone who likes new challenges.

Potential For Growth

As AOS is a growing company, there is upward mobility to move into team leaders and regional leaders for the right candidate.

Preferred Qualities:

Living in California (Preferably South)
NDT Certified
Holding a CAT Card
Veteran
Other NFPA Certifications
Fire Suppression System and/or Fire Alarm System Certified
Current Passport

Must-have Qualities:

Willing to Travel for Extended Periods
Knowledgeable of NFPA Code
Technically-minded
Detail Oriented
Strong Work Ethic
Physically Fit
Must be able to pass background check (No felonies)
Works well in a team environment
Willing to Cross Train
Able to Follow Directions
High School Graduate or equivalent
Driver's License

Benefits

Health-insurance, flexible vacation schedule, competitive pay
